SATURDAY JANUARY 28, 1882.

To the Electors of Honolulu-Fellow citizens of all races:-I rejoice with you that we are living under the beneficent reign of King Kalakaua, and that the time draws near when we, as subjects of a Constitutional Kingdom, may meet to-

sentatives of the popular will, to promote public welfare. I am a candidate for the suffrages of the Electors of Honolulu.

I did not wish to move in this candidacy, till assured by repeated invitations that my services were desired.

I have sought to serve the State faithfully in years past and my spirit is faithful to its former record of public service, with the present advantage of increased experience. These are my constant principles, and

At St. Andrew's Church to-morrow, the Annual Missionary services will be held. A special Anthem suitable for the occasion will be sung by the choir at the morning and evening services. The sermon on mission work will be preached by Rev'd A. Mackintosh at the 11 o'clock service. The offertories of the day will be devoted to the funds of the Society for the Propagation

The Sunday Time Table for Mr. Dodd's umns to-day. It will be noted that the Beretania street omnibus will go on to Waikiki to the baths on its 6 A.M. and 4 P.M. trips. The charge for the trips to the baths and back including use of the baths has been reduced to fifty cents, a change which will no doubt induce a greatly increased patronage of the establishment.

February 3rd is the Anniversary of the Honolulu Fire Department. On that day-Friday next-there is to be a torchlight procession and the annual supper after it. The Department have received an invitation to visit His Majesty during the evening, and the procession, after forming in Hotel street, will probably march down Nuu-anu street and along King street to the Palace before making the usual tour of the city. The ne adopted for the procession will exclude some of the lower streets of the town usually included in the programme, these being comparatively deserted after dark, and will be selected exclusively gether peacefully in order to choose reprefrom the livelier streets.

What the People Say.

Mr. Epiron, - Three months ago planters for a certain mill in this district bauled to the mill, in sixteen days, sufficient cane to produce 1281 clarifiers, the juice standing at 9 full, from which they received nearly 64 tons of sugar, Nos. 1, 2, and 3. Another planter followed directly after them, and, from cane delivered, he is acknowledged to have got 128 clarifiers, juice omnibusses is published in our advertising col- standing at 9 full, from which his total yield of sugar is but 50 tons full, Nos. 1, 2, and 3. I must here state that the clarifiers at this mill hold 34 gallone more than those of any other mill in the district. This is merely mentioned in case those replying to my letter should say that the number of lbs. per clarifier is very high. In the case of the first planter, the clarifiers in question hold 534 gallons. Now, Sir, it took me (the last planter mentioned) several days more to get the same number of clarifiers. I would ask you if you can show me bow it is that such a great difference-i.e., 14 tons-can exist? This, I find, is a question involving a vast amount of money to the planters generally throughout this group; and in my case, say 7 tons of sugar at 6 cents per lb., or \$840. A planter getting just one-half of his sugar must have every pound, or he will go under; and I now seek the aid of your valuable paper to state my grievance, and ask you to help me to right what I have failed to get adjusted in a more natural way-i.c., with the mill owner.
